NORTH COUNTRY COMMUNITY SERVICES, INC.***December 30, 1969***

The cornerstone for North Country Community Services was laid in 1966. Sealed into the foundation was a vow to combat man's oldest enemy, the malfunction of mind and spirit.

The number of persons seen at the clinic has climbed steadily from 22 in 1965/66 to 626 in our last fiscal year which closed on June 30, 1969. The people of Northumberland have responded well with public and personal funds and interest. Our newly established clinic in Groveton provides closer range services to your community. Members of your community are already acting as "community caretakers," providing volunteers services as board members of NCCSI, serving on our newly formed Advisory Committee, providing supportive therapy for mental patients. We have worked closely with your schools and your schoolmen and have, we feel, achieved a large measure of success.

The problem of mental illness is one of our community's biggest. Alcoholism, retardation, drug use by teenagers, speech and reading disability, marital discord; there is so much to be done. Your support of our program has been most real and important.

As the year closes, may we thank you for your past cooperation and request that you again place the sum of \$2,616.00 on your town warrant for the 1970 town meeting.

Sincerely,

JOHN K. DONOHUE, ACSW
Executive Director

PROGRESS REPORT

Comprehensive Planning Study

The "Coos-6 Project" is a Federally aided comprehensive planning study for the Towns of Stratford, Northumberland, Lancaster, Dalton, Jefferson, Whitefield. After more than a year of discussions and application procedures, the project was authorized in October of 1969 with an allocation of Federal funds covering two-thirds of the total cost of \$50,000 for the program. The local third is being shared collectively by the six towns and was authorized at previous Town meetings.

The purpose of the program is to provide each Town with a comprehensive development guide which will establish priorities for local action and provide tools necessary to guide future growth. By undertaking this task jointly the program cost to individual Towns has been reduced enormously and an additional benefit is the opportunity to review regional or mutual areas of interest which otherwise would not be possible.

So far, the study has been concerned with gathering information and specific planning is not expected to commence until the spring of 1970. Work items which have been completed as part of the data gathering stage include existing land use surveys of all of the Towns, housing and environmental conditions, community facilities and natural features. Base maps have been made for all of the Towns in the area and draft reports of data mentioned above are currently in preparation for use by the local planning boards.

The program is being coordinated by representatives of each of the planning boards in the six-town area. Introductory meetings have been held with members of local planning boards and boards of se-

lectmen in each of the Towns during the fall and winter. Numerous individuals and other public officials have also been met by members of the planning team. Further meetings of a more formal nature are scheduled to begin in the spring when the actual preparation of planning recommendations will begin.

The consultants have been favored by splendid cooperation from officials and individuals in the entire area and special thanks are due to all of those who have given freely of their time and contributed much to getting this unique program under way.

WATER POLLUTION REPORT

Substantial progress since the last Town Meeting, has been made toward pollution abatement. Construction bids were solicited for the four contracts comprising the domestic sewage collection and treatment facilities for Northumberland and Groveton. Acceptable bids were received for the Northumberland Village system; the Groveton pumping station and sewers; and the Groveton storm drain separation work. The one bid received for the Groveton domestic treatment system was excessive and was rejected. This work will be readvertised in anticipation of acceptable results. Construction is underway on the Groveton pumping station contract and the other two are scheduled to proceed in June.

Our Consulting Engineers, Anderson-Nichols & Company, Inc., have completed the final design and preparation of construction documents for the white water primary treatment as authorized by the town, with funds provided by the Department of Housing and Urban Development. Further progress on this and other industrial waste treatment facilities is contingent upon the availability of adequate Federal and State grant assistance.

Due to the rapid rise in construction costs and more rigid Federal and State requirements, the project cost estimate for the domestic sewage collection and treatment has been revised accordingly, as follows:

	Eligible Items	Ineligible Items	Total

Storm Drain Separation	\$	\$ 122,400.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

The past year has seen some important steps in the strengthening of our elementary grades (1-3). The first step was in the hiring of two additional teachers which made it possible to reduce the class size. Three rooms were rented from the Methodist Church to provide the necessary additional space. (This plan was adopted rather than the original plan of purchasing portable classrooms.) This arrangement has worked out very well and we thank the Methodist Church Board and members for making this space available.

A readiness or transitional class was established for those children entering Grade 1 who were not ready for the regular Grade 1 program. This program was partially funded by the federal Elementary & Secondary Education Act of 1960 (Title I, \$2,995.00) with Head Start providing much of the material. This kind of program is designed to help prevent many school failures ($\frac{1}{4}$ of N.H. elementary children fail at least one year) by giving special attention to the time when the child enters school for the first time. Half of the failures are children who have birthdays in October, November, and December. As an added precaution against accepting children before they are ready the school board has adopted the following policy which coincides with the state attendance laws:

September, 1970. Any child 6 years old by September 30, must attend school. If a child has attended kindergarten and will reach his 6th birthday between September 30, and December 30, 1970, he will be admitted to the first grade. If a child has not attended kindergarten but will be six by December 30, the parents may request the

school to give the Gesell Developmental Readiness Test. If the child performs at or above a level of readiness as established by the board, he will be allowed to enter Grade 1. If the child does not perform at this level, he must wait until September, 1971.

September, 1971

A child must be six years old by September 30, 1971 in order to enter school for the 1971-72 school year.

Scheduling changes have made it possible for the children in the fifth and sixth grades to receive additional enrichment opportunities. Physical education and music have become a regular part of the curriculum.

The addition of two district financed teachers' aides have been of immeasurable value and their effect on the general curriculum is continuing to increase in effectiveness. We have also had the services of a teacher's aide (employed by Operation Mainstream).

Two major federally financed projects have become a reality during the first part of the 1969-70 school year. We received a grant of \$45,000 under Title III,

ESEA, for the education of handicapped children. This project provides for a special class as well as diagnostic and corrective aid to many students in our union on a consulting basis. We have also received under Title V \$2,500 for an assessment and survey of our pupil enrollment projections and educational facilities and programs. This survey includes both Groveton and Stark school districts and is being conducted by the Center for Educational Field Services. The consultant team will identify possible alternatives and solutions for future educational planning. A great deal of ground work and time went into these proposals before they were submitted for approval. Much of the credit for this work should go to Mr. Gordon Flight, Elementary Principal, who was responsible for the major share of the preliminary work.

The developments relative to the status of our supervisory union have been of major concern to all of the districts in our union. The latest action by the State Board of Education is as follows:

“That Supervisory Union #58 (Northumberland) remain as is for the school year 1970-71, on condition that at least two additional professionals be added to the supervisory union staff (as voted by the Supervisory Union Board on October 6, 1969), such additional staffing not eligible for state support.”

The action by the local union board appeared to be the only action that could be taken to keep the union (#58—Stratford, Northumberland and Stark) in its present form. The State Department of Education had earlier recommended that Northumberland and Stark become a part of Union #35 (White Mountains Supervisory Union) and that Stratford become a part of Union #7 (Colebrook).

The choice has now been left to the voters of the three districts. If the citizens vote to add the additional personnel, the present arrangement will continue, otherwise the union will undoubtedly be dissolved.

Another significant and unfortunate development will be the closing of the St. Francis Xavier Kindergarten classes at the end of this school year. Groveton has been very fortunate to have had this valuable service available to the children of the community. Our sincere thanks go to the Sisters of St. Joseph for the many contributions they have made during their stay here.

It will now be up to the voters of Groveton to decide if they wish to provide public kindergarten classes for the future.

I personally would like to take this opportunity to thank the school board, the staff and the citizens of Northumberland for their assistance and cooperation since I took over this position last May.

Respectfully submitted,

ALAN E. RICH
